The directors present the annual report together with the audited financial statements of the Company and the Group, which comprises the parent Gillieru Investments p.l.c and its subsidiary Gillieru Holdings Limited (hereinafter referred to as the Group) for the year ended 31 December 2021.

Principal Activities

The Company's principal activity is to carry on the business of a finance and holding company.

The Group's main trading activity is that of investing, acquiring or leasing, holding and operating hotel and other ancillary outlets within the hotel.

Performance Review

During 2021, the effects and disruptions caused by the COVID19 pandemic to the global hospitality industry continued to have negative effects on the local hospitality industry resulting in low tourism levels when compared to pre-COVID figures. During the year under review, the Group has continued to avail itself of the government schemes and additional financing to finance the cash shortfall encountered by the Group. These schemes continued to aid the Group in its liquidity position during the year under review.

As from 31 August 2020, the Group has leased out to a third party the food and beverage operations, whereby a third party was appointed as a designated operator of the Gillieru Complex, including Cafeteria Café Carmelo, the Gillieru Restaurant, the Pallakun Lido and the Gillieru Pool Area. Such leasing has resulting in the current year's food and beverage expenses to decrease drastically since the payroll costs and similar food and beverages costs were absorbed by the lessee.

The Group generated revenue amounting to €815,977 (2020: €665,784) and reported a loss for the year before taxation amounting to €229,408 (2020: €813,503). After accounting for taxation, the Group's loss amounted to €136,858 (2020: €502,620).

The pandemic did not have a direct impact on the business of the Company, given that the Company is a finance Company and generates its revenue in line with the loan agreement entered into with its subsidiary on 1 January 2019. In fact, the Company generated finance income of €247,450 (2020: €247,450). The Company's profit before taxation amounted to €2,375 (2020: €4,654). After accounting for taxation, the profit for the year amounted to €1,544 (2020: €3,025).

Position Review

The Group's asset base amounted to €11,074,137 as at 31 December 2021, (2020: €11,153,765) consisting principally of the property, plant and equipment, incorporating the Gillieru Complex. The Group's total liabilities amounted to €6,823,443 as at 31 December 2021 (2020: €6,741,214) consisting principally of the bond, bank borrowings and trade and other payables.

The Company's asset base amounted to €8,207,661 as at 31 December 2021 (2020: €8,162,936). The Company's main assets are the investment in subsidiary amounting to €2,860,104 (2020: €2,860,104) and to the loans receivable amounting to €4,910,100 (2020: €4,910,100).

The Company's total liabilities amounted to €5,070,948 as at 31 December 2021 (2020: €5,002,767). The Company's main liabilities are made up of €5,000,000 4.75% Secured Bonds 2028.

Dividends and Reserves

The accumulated losses of the Group and the Company at the end of the year amounted to €602,468 (2020: €448,446) and €21,931 (2020: €23,475) respectively. The directors do not recommend the distribution of a dividend and propose to charge the loss for the year to reserves.

Financial Risk Management

The Group's activities expose it to a variety of financial risks, including credit risk and liquidity risk. These are further analysed in Note 29 to these financial statements.

Events Subsequent to the Statement of Financial Position Date

The directors assessed subsequent events from 1 January 2022 through 27 April 2022, the date these financial statements were approved. Through such assessment, the directors have determined that events subsequent to balance sheet date occurred as reported in note 30 to these financial statements.

Future Developments

The directors intend to continue to operate in line with the current business plan whilst seeking new revenue streams which may be generated from the Gillieru Complex, including but not limited to, the lease of areas within the Gillieru Complex and additional facilities that can improve the hotel's competitiveness and enhance the experience of visitors and guests accommodated at the hotel.

Directors

Mr. Stephen Cremona (Executive and Chairman)
Ms. Stephanie Cremona (Executive)
Mr. Karl Cremona (Non- Executive)
Mr. George Micallef (Non- Executive)
Mr. Alfred Grech (Non- Executive)

The Board meets on a regular basis to discuss the financial performance, financial position and other matters relating to the Group. The Company's Articles of association do not require any director to retire.

Statement of Directors' Responsibilities

The Maltese Companies Act, (Cap 386) requires the directors to prepare financial statements for each financial period which give a true and fair view of the state of affairs of the Company and the Group at the end of the financial year and of the profit or loss of the Company and the Group for that year.

In preparing the financial statements, the directors are required to: -

- ensure that the financial statements have been drawn up in accordance with International Financial Reporting Standards as adopted by the EU;
- select suitable accounting policies and apply them consistently;
- make judgements and estimates that are reasonable in the circumstances;
- adopt the going concern basis, unless it is inappropriate to presume that the group and the parent company will continue in business as a going concern.

Statement of Directors' Responsibilities (continued)

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy, at any time, the financial position of the Company and the Group to enable the directors to ensure that the financial statements have been properly prepared in accordance with the Maltese Companies Act, (Cap 386). The directors are also responsible for safeguarding the assets of the Company and the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Auditors

The auditors, Horwath Malta, have expressed their willingness to remain in office and a resolution proposing their reappointment will be put before the members at the annual general meeting.

Going Concern

After making enquires and taking into consideration future plans, as explained in Note 2, the directors have a reasonable expectation that the Company has adequate resources to continue in operating existence for the foreseeable future. For this reason, the directors continue to adopt the going concern basis in preparing financial statements.

Additional disclosures**Principal risks and uncertainties associated with the Company**

The Company's main objective is that of a finance and holding company. Given that the Company does not carry out any trading activities, it is dependent on the receipt of income from Gillieru Holdings Limited ('referred to as Subsidiary company') in relation to Bond proceeds which it has advanced in the form of a loan. Furthermore, the Company and its Subsidiary company are both economically dependent on the business prospects of Gillieru Catering Company Limited ('referred to as Sub-subsidiary company'), given that the latter company operates the Gillieru Harbour Hotel located in St. Paul's Bay, Malta, following a lease agreement entered into between the Subsidiary and Sub-subsidiary company. Consequently, any material changes in the performance of the Gillieru Harbour Hotel would directly affect the performance and position of the Company and the Group.

During the year under review, the disruptions and effects of the COVID 19 pandemic on the global hospitality industry remained ongoing. The local tourism industry continued to be negatively impacted by the lower levels of tourism attracted to the country when compared to the pre COVID tourism figures. This has in turn continued to affect the local hospitality industry and inherently the performance of the Gillieru Harbour Hotel.

Throughout the year under review, the directors continued to monitor closely the ongoing effects of the pandemic on the operations of the Gillieru Harbour Hotel and in turn the ability of the Group to honour its financial commitments. In this regard, the Group continued to avail of the schemes made available by the government in order to aid in its liquidity.

Management and the board of directors remain confident that the Group will remain operating as a going concern and will continue to honour liabilities when these fall due.

Share Capital Structure

The Company's authorised and issued share capital is €200,000 divided into 200,000 Ordinary Shares of €1 each.

Holdings in excess of 5% of Share Capital

On the basis of information available to the Company, as at 31 December 2021, Stephen Cremona Holdings Limited held 199,995 shares in the Company which is equivalent to 99.998% of its total issued share capital.

There are no arrangements in place as at 31 December 2021, the operation of which may at a subsequent date result in a change in control of the Company.

Appointment and removal of directors

Appointment of directors shall be made at the Annual General Meeting of the Company.

An election of the directors shall take place every year at the Annual General Meeting of the Company. All directors shall retire from office once at least every three years but shall be eligible for re-election.

A director shall hold office until he resigns or may be removed before the expiration of his year of office by a resolution taken at a general meeting of the Company and passed by a member or members having the right to attend and vote, holding in the aggregate shares entitling the holders thereof to more than fifty percent of the voting rights attached to shares represented and entitled to vote at the meeting.

Powers of the Directors

The management and administration of the Company is vested in the Board of Directors. The powers of Board members are contained in Article 12 of the Company's Articles of Association. There are no provisions in the Company's Memorandum and Articles of Association regulating the retirement or non-retirement of directors over an age limit.

Directors' Interests

As at 31 December 2021, non-Executive directors and the Executive director Ms. Stephanie Cremona have no beneficial interest in the share capital of the Company. However, the executive director Mr. Stephen Cremona, has a direct and an indirect beneficial interest in the share capital of the company through his shares in Stephen Cremona Holdings Limited, who is the ultimate beneficial owner of the Group.

Contracts with Board Members and Employees

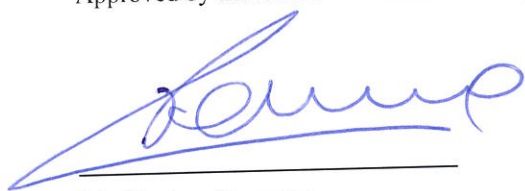

The Company does not have service contracts with any of its Board Members.

Statement by the Directors on the Financial Statements and Other Information included in the Annual Report

In pursuant to Prospects MTF Rules the directors declare that to the best of their knowledge:

- the financial statements give a true and fair view of the financial position and financial performance of the Company and the Group and have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union and with the Companies Act (Cap.386); and
- this report includes a fair review of the development and performance of the business and position of the Company, together with a description of the principal risk and uncertainties that it faces.

Approved by the Board of Directors and signed on its behalf by:

Mr. Stephen Cremona
Director

Ms. Stephanie Cremona

The Code adopted by the Company

Gillieru Investments p.l.c. (the 'Company') supports the Prospects MTF Rules in their entirety and the stipulations of the said rules in relation to dealing restrictions.

The Company also supports The Code of Principles of Good Corporate Governance annexed to the Capital Market Rules (the 'Code'). The Company is required by the Prospects MTF Rules to include, in the Annual Report, a Directors' Statement of Compliance which deals with the extent to which the Company has adopted the Code and the effective measures that the Company has taken to ensure compliance with the Code, accompanied by a report of the auditor.

Compliance with the Code

The Board of Directors (the 'Board') of the Company believe in the adoption of the Code and has endorsed them except where the size and/or particular circumstances of the Company are deemed by the Board not to warrant the implementation of specific recommendation. The Company has issued Bonds to the public and has no employees, accordingly some of the provisions are not applicable whilst others are applicable to a limited extent.

The Board

The Board sets the strategy and direction of the Company and retains direct responsibility for appraising and monitoring the Company's financial statements and annual report. The activities of the Board are exercised in a manner designed to ensure that it can effectively supervise the operations of the Company so as to protect the interests of Bondholders, amongst other stakeholders. The Board is also responsible for making relevant public announcements and for the Company's compliance with its continuing obligations in terms of the Prospects MTF Rules.

Chairperson and Chief Executive Officer

Due to the size structure of the Company and the nature of its operations, the Company does not employ a Chief Executive Officer (CEO). This function is undertaken by the Executive Directors.

The day to day running of the business is vested with the Executive Directors of the Company.

The Chairman is responsible for:

- leading the Board and setting its agenda;
- ensuring that the Directors of the Board receive precise, timely and objective information so that they can take sound decisions and effectively monitor the performance of the Company;
- encouraging active engagement by all members of the board for discussion of complex or contentious issues.

Board Composition

As at 31 December 2021, the Board consists of two executive directors and three non-executive directors, two of whom are independent, as follows:

Mr. Stephen Cremona – Executive Director and Chairman
Ms. Stephanie Cremona – Executive Director
Mr. Karl Cremona – Non-Executive Director
Mr. George Micallef – Independent, Non-Executive Director
Mr. Alfred Grech – Independent, Non-Executive Director

All directors shall hold office from the general meeting at which they are elected until the next general meeting. All shall retire from office once at least in each three year however retiring directors are eligible for re-election.

Internal Control

The Board is responsible for the internal control system of the Company and for reviewing its effectiveness. The internal control system is designed to achieve business objectives and to manage the risk of failure to achieve business objectives and can only provide reasonable assurance against material error, losses and fraud.

Systems and procedures are in place to control, monitor, report and assess risks and their financial implications.

Attendance at Board Meetings

Directors meet regularly to review the financial performance of the Company and the system of internal control processes. Board members are notified of meetings by the Company Secretary with the issue of an agenda, which is circulated in advance of the meeting. All directors are entitled to seek independent professional advice at any time on any aspect of their duties and responsibilities at the Company's expense.

The Board met formally 4 times during the year under review and attendance was as follows:

<i>Board member</i>	<i>Attended</i>
Mr. Stephen Cremona	4 (out of 4)
Ms. Stephanie Cremona	4 (out of 4)
Mr. Karl Cremona	4 (out of 4)
Mr. George Micallef	4 (out of 4)
Mr. Alfred Grech	4 (out of 4)

Committees

The Board does not consider it necessary to appoint a committee to carry out performance evaluation of its role, as the Board's performance is always under the scrutiny of the shareholders of the Company.

The Board considers that the size and operation of the Company does not warrant the setting up of nomination and remuneration committees. Appointments to the Board are determined by the shareholders of the Company in accordance with the Memorandum and Articles of Association. The Company considers that the members of the Board possess level of skill, knowledge and experiences expected in terms of the Code.

Audit Committee

The terms of reference of the Audit Committee consists of supporting the Board in their responsibilities in dealing with issues of risks, control and governance and associated assurance.

The Board set formal rules of engagement and terms of reference of the Audit Committee that establish its composition, role and function, the parameter of its remit and the basis for the processes that it is required to comply with. The Audit Committee is a sub-committee of the respective board and is directly responsible and accountable to the respective board. The Board reserves the right to change the Committee's terms of reference from time to time.

The Audit Committee has the role to deal with and advise the Board on:

- the monitoring over the financial reporting processes, financial policies, internal control structures and audit of annual financial statements;
- the monitoring of the performance of the entity borrowing funds from the Company;
- maintaining communication on such matters between the board, management and independent auditors;
- facilitating the independence of the external audit process and addressing issues arising from the audit process and;
- preserving the company's assets by understanding the Company's risk environment and determining how to deal with such risks.

The Audit Committee also has the role and function of considering and evaluating the arm's length nature of proposed transactions to be entered into by the Company and a related party.

The Malta Stock Exchange reviewed the Committee's Terms of Reference as part of the admission process with respect to the Bonds issued by the Company.

The Members of the Audit Committee

The Audit Committee is presently composed of:

Mr. Alfred Grech (Chairman of the Audit Committee)
Mr. George Micallef
Mr. Karl Cremona

Mr. Alfred Grech and Mr. George Micallef act as independent, non-executive members of the Committee. The Audit Committee is chaired by Mr. Alfred Grech, whilst Mr. George Micallef and Mr. Karl Cremona act as members. In compliance with the Prospects MTF Rules, Mr. Alfred Grech is an independent, non-executive director who is competent in accounting matters. The Company believes that the members of the Audit Committee have the necessary experience, independence and standing to hold office as members thereof.

The Directors believe that the current set-up is sufficient to enable the Company to fulfil the objective of the Prospects MTF Rules' terms of reference in this regard.

During the year under review, the audit Committee met 4 times.

Remuneration Statement

Pursuant to the Company's Articles of Association, the maximum aggregate emoluments that may be paid to directors are approved by the shareholder in a general meeting. Total net fees of €20,000 were payable to directors during the year under review.

The remuneration of directors is a fixed amount per annum and does not include any variable component relating to profit sharing, share options or pension benefits.

None of the directors is employed or has a service contract with the Company.

Relations with bondholders and the market

The Company publishes annual financial statements and when required company announcements. The Board feels these provide the market with adequate information about its activities.

Conflict of interests

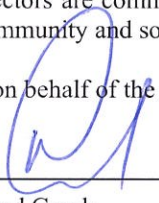

The directors are aware of their responsibility to always act in the interest of the Company and its shareholders as a whole, irrespective of who appointed them to the Board. In accordance with the Company's Articles of Association, the directors shall be obliged to disclose their interest in a contract, arrangement or proposal with the Company in accordance with article 145 of the Act and a director shall not vote at a meeting of Directors in respect of any contract, arrangement or proposal in which he has a material interest, whether direct or indirect. Furthermore, the Audit Committee has the task to ensure that any potential conflicts of interest are resolved in the best interests of the Company.

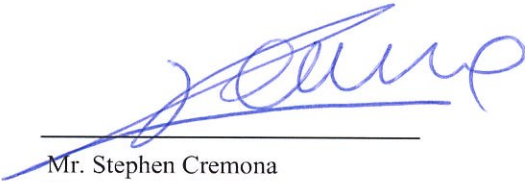

During the financial year under review, no private interests or duties unrelated to the Company were disclosed by the directors which were or could have been likely to place any of them in conflict with any interests in, or duties towards, the Company. Mr. Stephen Cremona, has a direct and indirect beneficial interest in the share capital of the Company, and as such is susceptible to conflicts arising between the potentially diverging interests of the shareholders and the Company.

Corporate Social Responsibility

The directors are committed to high standards of ethical conduct and to contribute to the development of the local community and society at large.

Signed on behalf of the Board of Directors on 27 April 2022 by:

Mr. Alfred Grech
Director and Chairman of the
Audit Committee

Mr. Stephen Cremona

INDEPENDENT AUDITOR'S REPORT

To the Shareholder of Gillieru Investments p.l.c.

Report on the Audit of the Financial Statements**Opinion**

We have audited the consolidated and stand-alone parent company financial statements of Gillieru Investments p.l.c. (the Company), set out on pages 15 to 50, which comprise the consolidated and stand-alone parent company statement of financial position as at 31 December 2021, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and the parent Company, as at 31 December 2021 and of the group and parent company's financial performance and the Group and parent company's cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the EU (EU IFRSs), and have been properly prepared in accordance with the requirements of the Maltese Companies Act (Cap 386).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the group and the parent company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in accordance with the Accountancy Profession (Code of Ethics for Warrant Holders) Directive issued in terms of the Accountancy Profession Act (Cap. 281) in Malta, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 2 in the financial statements, which indicates that the Group incurred a net loss of €136,858 during the year ended 31 December 2021 and, as of that date, the Group's current liabilities exceeded its current assets by €327,451. As stated in Note 2 to the financial statements, these events or conditions, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Emphasis of matter

Furthermore, we draw attention to Note 2 in relation to the basis of preparation of these financial statements, which addresses developments in connection with COVID-19, and the impact on the financial and operational performance of the Company. This matter is considered to be of fundamental importance to the users' understanding of the financial statements because of the potentially unfavorable nature of these developments. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of financial statements for the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

(a) Recoverability of group balances

Loan receivable includes funds advanced to the subsidiary company. This loan amounted to €4,900,000 as at 31 December 2021 and carries an agreed rate of interest of 5.05% per annum.

The recoverability of this loan agreement is assessed at the end of each financial year.

How the scope of our audit responded to the risk

We have reviewed the loan agreement and agreed the terms to the loan balance included in these financial statements. We have also assessed the financial soundness of the subsidiary company by making reference to its latest audited financial statements.

Findings

We concur with the management's view that the intercompany loan is recoverable.

(b) Investment in subsidiary

Investment in subsidiary represents the capitalisation of dividend receivable by parent company that was assigned to the Company, which amount is utilised as additional capital in the subsidiary company.

How the scope of our audit responded to the risk

We have reviewed the assignment of debt and novation agreements to ensure that these are recorded appropriately.

Findings

We concur with management's view with respect to the valuation of the investment in subsidiary.

Other Information

The directors are responsible for the other information. The other information comprises the Directors' Report. Our opinion on the financial statements does not cover this information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

With respect to the Directors' Report, we also considered whether the Directors' Report includes the disclosures required by Article 177 of the Maltese Companies Act (Cap. 386). Based on the work we have performed, in our opinion:

- the information given in the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report has been prepared in accordance with the Maltese Companies Act (Cap.386).

In addition, in light of the knowledge and understanding of the Group and its environment obtained in the course of the audit, we are required to report if we have identified material misstatements in the directors' report. We have nothing to report in this regard.

Responsibilities of the Directors

The directors are responsible for the preparation of the financial statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the EU, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Group's ability to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Report on the Statement of Compliance with the Principles of Good Corporate Governance

The Prospects MTF Rules issued by the Malta Stock Exchange require directors to prepare and include in their Annual Report a Statement of Compliance providing an explanation of the extent to which they have adopted the Code of Principles of Good Corporate Governance and the effective measures that they have taken to ensure compliance throughout the accounting year with those Principles.

The Prospects MTF Rules also require the auditor to include a report on the Statement of Compliance prepared by the directors.

We read the Statement of Compliance and consider the implications for our report if we become aware of any apparent misstatements or material inconsistencies with the financial statements included in the Annual Report. Our responsibilities do not extend to considering whether this statement is consistent with any other information included in the Annual Report.

We are not required to, and we do not, consider whether the Board's statements on internal control included in the Statement of Compliance cover all risks and controls, or form an opinion on the effectiveness of the Group's corporate governance procedures or its risk and control procedures.

In our opinion, the Statement of Compliance set out on pages 6 to 9 has been properly prepared in accordance with the requirements of the Prospects MTF Rules issued by the Malta Stock Exchange.

Other matters on which we are required to report by exception

Under Maltese Companies Act (Cap. 386) we are required to report to you if, in our opinion:

- We have not received all the information and explanations we require for our audit.
- Adequate accounting records have not been kept, or that returns adequate for our audit have not been received from branches not visited by us.
- The financial statements are not in agreement with the accounting records and returns.

We have nothing to report to you in respect of these responsibilities.

1. General Information

Gillieru Investments p.l.c (the "Company") is a limited liability company domiciled and incorporated in Malta.

2. Basis of Preparation

Statement of compliance

The consolidated financial statements include the financial statements of Gillieru Investments p.l.c and its subsidiary. These consolidated financial statements have been prepared in accordance with the provisions of the Companies Act, (Cap 386) enacted in Malta, which require adherence to International Financial Reporting Standards (IFRSs) as adopted by the EU.

Basis of measurement

The financial statements are prepared on the historical cost basis.

Going concern

During 2021 the disruptions and effects of the COVID 19 pandemic on the global hospitality industry remained ongoing. The local tourism industry continued to be negatively impacted by the lower levels of tourism attracted to the country when compared to the pre COVID tourism figures. This has in turn continued to effect the local hospitality industry.

During the year under review, the Group continued to avail of the government schemes and additional financing to aid in the liquidity management of the Group.

In preparing these financial statements, the directors of the Group assessed the ongoing impact that the COVID-19 pandemic is currently having on the performance of the Group. This was assessed through reviewing the anticipated profitability and cash flow projections of the Group. Management is currently seeking new revenue streams which may be generated from the Gillieru Complex, including but not limited to the lease of areas within the Gillieru Complex and additional facilities that can improve the hotel's competitiveness and enhance the experience of visitors and guests accommodated at the hotel.

The Group acknowledges that the COVID19 pandemic affects, and implications are still ongoing, and to this respect the directors will continue to take appropriate actions and consider the Group resilient enough to be able to meet its financial commitments when these fall due.

During the year ended 31 December 2021, the Group incurred a net loss of €136,858 and as at that date, the Company's current liabilities exceeded its current assets by €327,451. In accordance with EU IFRSs there maybe material uncertainty that may cast significant doubt upon Group's ability to continue as a going concern, and therefore, the Group may be unable to realise its assets and discharge its liabilities in the normal course of business. If the need arises, the Group's shareholder has agreed to provide adequate funds for the Group to meet is liabilities as they fall due.

Taking into consideration all of the above factors and circumstances, particularly the progressive improvement in the average room and recorded drop in operating costs during the past year at Group level, the directors are satisfied that, at the time of approving the financial statements, it is appropriate to adopt the going concern basis in preparing the financial statements.

2. Basis of Preparation (continued)

Functional and presentation currency

The financial statements are presented in Euro, which is the Group's functional currency.

Use of estimates and judgements

The preparation of financial statements in conformity with IFRS, as adopted by the EU, requires the use of certain accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies (refer to Note 5 – Critical accounting estimates and judgements).

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Preparation of consolidated financial statements

International Financial Reporting Standard 10, Consolidated Financial Statements, requires a parent company to prepare consolidated financial statements in which it consolidates its investments in subsidiaries. The consolidated financial statements of the company for the year ended 31 December 2021, comprise the company and its subsidiary, Gillieru Holdings Limited (together referred to as the "group"). Gillieru Holdings Limited is the parent company of Gillieru Catering Company Limited.

Subsidiaries consists of Gillieru Catering Limited, are all entities over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the group controls another entity.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

In the company's separate financial statements, investments in subsidiaries are accounted for by the cost method of accounting, that is at cost less impairment. Cost includes directly attributable costs of the investments. Provisions are recorded where, in the opinion of the directors, there is an impairment in value. Where there has been an impairment in the value of an investment, it is recognised as an expense in the period in which the diminution is identified. The results of subsidiaries are reflected in the company's separate financial statements only to the extent of dividends receivable. On disposal of an investment, the difference between net disposal proceeds and the carrying amount is charged or credited to profit or loss.

3. Changes in Accounting Policies and Disclosures

There were no new standards, amendments and interpretation to existing standards that have been published and are mandatory for the accounting periods beginning 1 January 2021 or later periods, that have an effect on the group's and parent company's financial statements.

4. Significant Accounting Policies

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

Revenue recognition

Revenue comprises the fair value of the consideration received or receivable in the ordinary course of the Company's activities. Revenue is shown net of value-added tax or other sales taxes, returns, rebates and discounts.

Revenue is recognised as follows:

i. Revenue from Hotel operations

Revenue from hotel operations includes revenue from accommodation, food and beverage services and other ancillary services. Most of the services are provided to customers during their stays in the hotel and depending on the type of booking, some services would be generally be amalgamated into one 'contract' (for example, bed and breakfast).

Each of the services rendered is assessed to be a distinct performance obligation, and if applicable, the Company allocates the transaction price to each of the services rendered to the customer on a relative basis, based on their stand-alone selling price. Revenue from such operations is recognised over time since the customer benefits as the Company is performing; the majority of revenue relates to accommodation (i.e. the amount allocated to such performance obligation is recognised over the customer's stay at the respective hotel).

ii. Catering services

The Company provides services in the catering industry. The transaction price comprises a fixed amount agreed with the respective customer. Any upfront payments are deferred as contract liabilities, and revenue is recognised in the year that the services are provided to the customer.

iii. Rental Income

Rental income is recognised in profit or loss on a straight-line basis over the term of the lease.

Borrowing costs

Borrowing costs are recognised for all interest-bearing instruments on an accrual basis using the effective interest method. Interest costs include the effect of amortising any difference between initial net proceeds and redemption value in respect of interest-bearing borrowings.

4. Significant Accounting Policies (continued)

Finance income and finance costs

Finance income and finance costs are recognised in profit or loss for all interest-bearing instruments on a time-proportionate basis using the effective interest method. Finance costs include the effect of amortising any difference between net proceeds and redemption value in respect of the Company's borrowings. Finance income and finance costs are recognised as they accrue, unless collectability is in doubt.

Leases

Leases are classified as finance leases whenever the term of the lease transfers substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessor

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Income taxation

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in the statement of comprehensive income except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the period, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

4. Significant Accounting Policies (continued)

Earnings per share

The Group presents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year.

Employee benefits

The Company contributes towards the State defined contribution pension plan in accordance with local legislation in exchange for services rendered by employees and to which it has no commitment beyond the payment of fixed contributions. Obligation for contributions are recognised as an employee benefit in profit or loss in the years during which services are rendered by employees.

Property, Plant and Equipment

Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial year in which they are incurred.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognised net within other income in profit or loss. When revalued assets are sold, the amounts included in the revaluation reserve are transferred to retained earnings.

Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value. Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

The estimated useful lives for the current years are as follows:

- Building – 50 years
- Improvements to premises – 50 years
- Motor vehicles – 5 years
- Furniture, fixtures and fittings – 10 years
- Airconditioning – 6 years
- Computer and electronic equipment – 4 years

4. Significant Accounting Policies (continued)

Property, plant and equipment (continued)

Depreciation (continued)

- Computer software – 4 years
- Communication equipment – 6 years
- Security system and equipment – 6 years
- Catering equipment – 6 years
- Electrical and plumbing – 6 years

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted as appropriate. Impairment losses are recognised as an expense in the profit or loss.

Impairment of non-financial assets

Assets that are subject to depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

Investment in subsidiary

Subsidiary undertakings are all entities over which the Company has the power to govern the financial and operating policies generally accompanying a shareholder of more than one half of the voting rights that are currently exercisable or convertible are considered when assessing whether the company controls another entity.

In the Company's financial statements, investment in subsidiary is accounted for using the cost method of accounting. The dividend income from such investment is included in the statement of comprehensive income in the accounting year in which the Company's rights to receive payment of any dividend is established. If the Company gathers objective evidence that an investment is impaired using the same process disclosed in accounting policy – impairment of financial assets, the impairment loss is recognised in the statement of comprehensive income. On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the statement of comprehensive income.

Financial Instruments

Recognition and initial measurement

Financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provision of the instrument.

4. Significant Accounting Policies (continued)

Financial instruments (continued)

Recognition and initial measurement (continued)

A financial asset (unless it is a trade receivable without a significant component) or financial liability is initially measured at fair value plus or minus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant component is measured at transaction price.

Classification and subsequent measurement

i. Financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost, fair value through other comprehensive income (FVOCI) (debt investment), FVOCI (equity instrument) or FVTPL.

In the years presented the Company does not have financial assets categorised as FVTPL and FVOCI.

The classification is determined by both:

- the entity's business model for managing the financial asset
- the contractual cash flow characteristics of the financial asset.

All income and expenses relating to financial assets that are recognised in profit or loss are presented within finance costs or finance income, except for impairment of trade receivables which is presented within administrative expenses.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting year following the change in the business model.

Financial assets at amortised cost

A financial asset is measured at amortised cost if it meets both the following conditions:

- it is held within a business model whose objective is to hold the financial assets and collect its contractual cash flows and;
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial recognition, these are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discount is immaterial. The Company's cash and cash equivalents, loans and receivables and other receivables fall into this category of financial instruments.

Financial assets at fair value through profit or loss (FVTPL)

Financial assets that are held within a different business model other than 'hold to collect' or 'hold to collect and sell' are categorised at fair value through profit and loss. Further, irrespective of the business model financial assets whose contractual cash flows are not solely payments of principal and interest are accounted for at FVTPL. All derivative financial instruments fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements apply.

4. Significant Accounting Policies (continued)

Financial instruments (continued)

Classification and subsequent measurement (continued)

Financial assets at fair value through profit or loss (FVTPL) (continued)

Assets in this category are measured at fair value with gains or losses recognised in profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

As already noted above, the Group held no financial assets at fair value through profit or loss.

Financial assets at fair value through other comprehensive income (FVOCI)

A financial asset is measured at FVOCI if it meets both the following conditions and is not designated at FVTPL:

- it is held within a business model whose objective is achieved by collecting contractual cash flows and selling financial assets and;
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment by investment basis.

As already noted above, the Group held no financial assets at FVOCI.

Assessment whether contractual cashflows are SPPI

For the purpose of this assessment, 'principal' is defined as the fair value of the financial assets on initial recognition. 'Interest' is defined as consideration for the time value of money and for credit risk associated with the principal amount outstanding during a particular year of time.

In assessing whether the contractual cash flows are SPPI, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition.

i. Financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expenses, are recognised in profit or loss.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

4. Significant Accounting Policies (continued)

Financial instruments (continued)

Derecognition

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfer the right to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group currently has legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Inventories

Inventories are measured at the lower of cost and net realisable value. Cost is calculated using the weighted-average method and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs of completion and the costs to be incurred in marketing, selling and distribution.

Trade and other receivables

Trade receivables comprise amounts due from customer for services provided in the ordinary course of business. If collection is expected in one year or less (or in the normal operation cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment, i.e. expected credit loss allowance.

4. Significant Accounting Policies (continued)

Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short-term investments that are held to meet short-term cash commitments rather than for investment or other purposes.

Expected Credit Losses

The Group recognised a loss allowance for Expected Credit Losses (ECLs) on the following financial assets at amortised cost: loans and receivables, trade and other receivables and cash at bank.

Where a collective basis is applied (see the Accounting Policy entitled 'Collective basis' below), the ECLs on these financial assets are estimated using a provision matrix based on the Company's historical credit loss experience based on the past due status of the debtors, adjusted for factors that are specific to the receivables, general economic conditions of the industry in which the receivables operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

The amount of ECLs is updated at each reporting date to reflect changes in credit risk since the initial recognition.

For trade receivables that do not contain a significant financing component (or for which the IFRS 15 practical expedient for contracts that are one year or less is applied), the Company applies the simplified approach and recognises lifetime ECL.

Under IFRS 9, loss allowances are measured on either of the following bases:

- 12-month ECLs: these are ECLs that result from possible default events within the 12 months after the reporting date; and
- Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument.

The Group measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured as 12-month ECLs:

- Financial assets that are determined to have a low credit risk at the reporting date; and
- Other financial assets for which credit risk (i.e., the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

A financial instrument is determined to have low credit risk if (i) the financial instrument has a low risk of default, (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a financial asset to have low credit risk when it has an internal or external credit rating of 'investment grade' as per globally understood definitions. To the extent applicable, the Group has applied the low credit risk assumption for the following classes of financial assets – cash at bank.

4. Significant Accounting Policies (continued)

Expected Credit Losses (continued)

Definition of Default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable:

- When there is a breach of financial covenants by the counterparty; or
- Information develop internally or obtained from external sources indicates that the receivable is unlikely to pay its payables, including the Company, in full (without taking into account any collateral held by the Company).

The maximum period considered when estimating ECLs is the maximum contractual year over which the Group is exposed to credit risk.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events: significant financial difficulty; a breach of contract, such as a default or past due event; the borrower, for economic or contractual reason relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; it is becoming probable that the borrower will enter bankruptcy or other financial recognition; or the disappearance of an active market for that financial asset because of financial difficulties.

Measurement and recognition of ECLs

For the financial assets, the credit loss is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate. ECLs represent the weighted average of credit losses with the respective risks of a default occurring as the weights.

Where applicable, forward-looking information considered includes the future prospects of the industries in which the Group's receivables operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that related to the Group's core operations.

Collective basis

If evidence of a significant increase in credit risk at the individual instrument level is not yet available, the Group performs the assessment of significant increases in the credit risk on a collective basis by considering information on, for example, a group or sub-group of financial instruments.

The grouping is regularly reviewed by the management to ensure the constituents of each group continue to share similar credit risk characteristics.

4. Significant Accounting Policies (continued)

Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Recoveries made are recognised in profit or loss as impairment gains.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares and share options are recognised as a deduction from equity, net of any tax effects.

Borrowings

Borrowings are recognised initially at the fair value of proceeds received, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost: any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the year of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve months after the end of the reporting year.

Dividend distribution

Dividend distribution to the Group's shareholders is recognised as a liability in the Group's financial statements in the year in which the dividends are approved by the Group's shareholders.

Trade and other payables

Trade payables comprise obligations to pay for services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

5. Critical Accounting Estimates and Judgements

Estimates and judgements are continually evaluated and based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances.

In the opinion of the directors, the accounting estimates and judgements made in the course of preparing these financial statements are not difficult, subjective or complex to a degree which would warrant their description as critical in terms of the requirements of IAS 1 (revised).

6. Revenue

Revenue represents the invoiced value of the accommodation and ancillary services rendered net of direct taxation thereon.

As at 31 December		
Cost and carrying net book amount	<u>2,860,104</u>	<u>2,860,104</u>

The investment in subsidiary represents the capitalisation of dividends receivable by the parent company that was assigned to the Company, which amount is utilised as additional capital in the subsidiary company.

The principal subsidiary undertaking which is unlisted at 31 December 2021 is shown below:

	Registered Office	Principal Activity	Percentage of shares held	2021 €
Gillieru Holdings Ltd	296, Northern Star, Triq San Pawl, St. Paul's Bay	Leasing Property	83.54	8,354

The shares held by Gillieru Investments plc in Gillieru Holdings Limited are pledged as security under the Gillieru Security Trust agreement, whereby Gillieru Investment plc grants a pledge over all of its shares held in Gillieru Holdings Limited, from time to time, in favour of the Security Trustee.

The Company has an indirect investment in Gillieru Catering Ltd which is 100% directly owned by Gillieru Holdings Limited.

15. Loans Receivable

	The Group		The Company	
	2021	2020	2021	2020
	€	€	€	€
<i>Non-current</i>				
Loan receivable from immediate and ultimate parent company	3,000	3,000	3,000	3,000
Loan receivables from subsidiary company	-	-	4,902,000	4,902,000

Amounts due from immediate and ultimate parent company	1,187	630	-	-
Amounts due from companies owned by common shareholders	1,467	1,467	-	-
Amounts due from ultimate beneficial owner	823	823	-	-
	<u>3,477</u>	<u>2,920</u>	<u>253,350</u>	<u>255,900</u>
Total	<u>395,017</u>	<u>145,950</u>	<u>5,163,450</u>	<u>5,166,000</u>

Loans receivables from immediate and ultimate parent company, ultimate beneficial owner and companies owned by common shareholders, relate to transfer of funds.

Loans receivables from parent company, ultimate beneficial owner and companies owned by common shareholders are unsecured, interest free and have no fixed date for repayment but are not envisaged to be paid within the next twelve months, except for the amounts of €1,187, €823 and €1,467 respectively which are unsecured, interest free and repayable on demand and an amount of €215,000 which is repayable by ultimate beneficial owner by February 2023.

Mainly, the loan receivable from subsidiary company relates to the advancement of bond proceeds, which were subsequently utilised in line with the use of the proceeds as per Company Admission Document.

15. Loans receivable (continued)

Loan receivable from subsidiary company is unsecured, carries interest rate of 5.05% per annum and is repayable in full by not later than 31 October 2028, except for the amount of €2,000 which is unsecured, interest free and has no fixed date for repayment but not envisaged to be paid within the next twelve months.

The current portion of amounts due from subsidiary company is related to the accrued interest at year end not yet paid.

At 31 December 2021 loans receivables are disclosed net of provision for impairment on amounts due from companies owned by common shareholders of €11,340 (2020: €11,340).

16. Deferred Taxation

Deferred taxation is calculated on all temporary differences under the liability method, using the principal tax rate of 35% (2020: 35%).

The movement in the deferred tax asset is as follows:

	The Group		The Company	
	2021	2020	2021	2020
	€	€	€	€
Deferred tax asset				
At beginning of the year	392,812	79,308	12,371	-
Credit to profit or loss	92,550	313,504	(831)	12,371
At end of year	<u>485,362</u>	<u>392,812</u>	<u>11,540</u>	<u>12,371</u>

16. Deferred Taxation (continued)

Deferred taxation is principally composed of deferred tax asset and liabilities which are to be recovered and settled after more than twelve months. Deferred tax assets and liabilities are offset when the income tax relates to the same fiscal authority. The deferred taxation balance at 31 December represents:

	The Group		The Company	
	2021	2020	2021	2020
	€	€	€	€
Deferred tax asset				
<i>Temporary difference on:</i>

27. Related Party Transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

Gillieru Investments plc is the parent of subsidiary Gillieru Holdings Ltd and sub subsidiary Gillieru Catering Company Limited (together referred to as the Gillieru Group). All companies forming part of the Gillieru Group are related parties since these companies are ultimately owned by Stephen Cremona Holdings Limited which is considered by the directors to be the ultimate controlling party.

Trading transactions between these companies include items which are normally encountered in a group context. The Group is ultimately owned by Mr. Stephen Cremona.

Stephen Cremona Holdings Limited is the immediate and ultimate parent of the Gillieru Group.

Earnings per share (cents)	<u>(0.57)</u>	<u>(2.10)</u>

29. Financial Risk Management

At the period end, the Group's main financial assets comprised of the loans receivables, trade and other receivables and cash held at bank.

At the period end the Group's main financial liabilities consisted of borrowings and trade and other payables.

The exposure to risk and the way risks arises, together with the Company's objectives, policies and processes for managing and measuring these risks are disclosed in more detail below.

Timing of Cash Flows

The presentation of the above-mentioned financial assets and liabilities listed above under the current and non-current heading within the statement of financial position is intended to indicate the timing in which cash flows will arise.

Credit risk

Credit risk refers to the risk that a counterparty will cause a financial loss for the Company by failing to discharge an obligation.

Financial assets which potentially subject the Company to concentrations of credit risk consist principally of receivables and cash at bank.

Receivables and loans are presented net of an allowance for doubtful receivables. In terms of IFRS 9 the Group applies an ECL model as an allowance for doubtful receivables. The Group assesses the credit quality of its customers, the majority of which are unrated, taking into account the financial position, past experience and other factors. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. It has policies in place to ensure that sales of services are effected with customers with an appropriate credit history.

29. Financial Risk Management (continued)

The Group banks only with local financial institution with high quality rating. Management considers the probability of default to be close to zero as the counterparty has a strong capacity to meet its contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Group.

The carrying amount of financial assets recorded in the financial statements, which is net of any impairment losses, where applicable, represents the Group's maximum exposure to credit risk without taking account of the value of any collateral held.

Management considers the credit quality of these financial assets at the end of the reporting year as being acceptable.

Provision Matrix

In terms of IFRS 9, the Company applies a provision matrix to estimate the ECL provision on its trade receivables. For such amounts, the ECL provision matrix resulted in a loss allowance of €4,294 as at 31 December 2021 (2020: €24,019). The table overleaf details the risk profile the Company's trade receivables which we analysed collectively based on the Group's provision matrix.

Net carrying amount at 31 December 2021							91,461

29. Financial Risk Management (continued)

Credit risk (continued)

With respect to trade balances with related parties the Group assesses the credit quality of these related parties by taking into account the financial position, performance and other factors. In measuring the expected credit losses on these balances, management determined the impairment provision independently from third party trade receivables and as at 31 December 2021, the impairment loss amounted to €11,340 (2020: €11,340). Management take cognisance of related party relationship with these entities and settlement arrangements in place and management does not expect any further losses from non-performance or default.

Liquidity Risk

The Group is exposed to liquidity risk in relation to meeting future obligations associated with its financial liabilities, which comprise principally borrowings and trade and other payables (refer to Notes 22, 23 ,24 and 25). Prudent liquidity risk management implies maintaining sufficient cash and committed credit lines to ensure the availability of funding to meet the Group's obligations.

Management monitors liquidity risk by means of cash flows forecasts on the basis of expected cash flows over a twelve-month year to ensure that no additional financial facilities are expected to be required over the coming year.

The carrying amounts of the Group's assets and liabilities are analysed into relevant maturity groupings based on the remaining year at the end of the reporting year to the contractual maturity dates in the respective notes to the financial statements.

Capital Management

The primary objective of the Group's capital management is to ensure that it maintains a healthy capital ratio to support its business and maximise shareholder value. The Group manages its capital structure and makes adjustments to it, in light of economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payments to shareholders, return capital to shareholders or issue new shares.

Fair Values of Financial Instruments

At 31 December 2021 and 31 December 2020, the carrying amounts of receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contracted cash flows at the current market interest rate that is available to the Group for similar financial instruments.

As at the end of the reporting year, the fair values of financial assets and liabilities, approximated the carrying amounts shown in the statement of financial position.

30. Events Subsequent to Statement of Financial Position Date

Towards the end of February 2022, the armed conflict between the Russian Federation and Ukraine set in motion a chain of diplomatic efforts and other major geopolitical events which led a number of western nations, including the EU institution and the United States government, to impose a number of sanctions on Russia and Belarus. These current sanctions in place include several restrictive measures of a direct financial nature that are having a significant direct impact on the broad economy of the invading nations, as well as resulting in a downgrading of their sovereign and private debt by international credit rating agencies.

The consequences of these restrictive measures are however also expected to have a significant impact on the economies of the countries implementing such trade restrictions, with a spill-over on the world economy, as uncertainty and market volatility remain high across all industries with increasing tensions and rhetoric on both sides. The cost of doing business is undoubtedly set to rise further, following the initial Covid shocks on the global economy seen in the last couple of years, as the ongoing conflict in Ukraine and Covid-related measures continue to rock global supply chains. Both the International Monetary Fund and the World Bank have indicated that the resulting impact of the conflict to global growth and recovery from Covid effects will be significant. As the price of oil and gas shift upwards due to the war, transport and other procurement costs required for business will also increase. Due to the nature and decisiveness of these restrictive measures, the economic impact globally is expected to be long-lasting, even in the eventuality that the conflict ceases in the immediate future. The dynamics of international trade between the EU, the USA and Asia will change forever.

As at the date of this report, the Group is not affected by the above-mentioned conflicts however the situation is bound to change. The Group is already experiencing rising operating costs and may also see prices rising if this conflict persists. Inflation is also leading to demands for increases in payroll. This comes at a time when the labour market is in short supply. The rising cost of fuel is also starting to have an effect on the aviation sector and the price of airline seats. The main source market for Malta is Europe and therefore potential customers are equally affected by the war in Ukraine. The war is bound to increase competition on the market, and this will no doubt put pressure on holiday prices, at a time when disposable capital gets tighter. Therefore, tourism and the hospitality may experience a drop in revenue and profitability. At the time of this report, the demand for Malta remains good and seat capacity for the summer are positive, though 2022 tourist arrivals will remain below the 2019 figures. The booking position for the Group for summer 2022 is indeed encouraging with healthy average rates on the bookings. However, the situation remains volatile.

In view of this, management together with the directors, continue to actively monitor all developments taking place both locally and internationally in order that they take remedial and timely action deemed necessary in effort to ensure that the hotel maximises its market share and profitability.
